HEALTHCARE INNOVATIONS

Product Catalogue
2018/19

Dynamik Products, founded in 2014, was inspired by the personal experience of our founding director having dealt with the pain and frustrations of training for the London Marathon.

Designed with the professional in mind, our mission is to design and manufacture products that complement traditional physical therapy methods. All our hot and cold therapy products are registered as Class 1 Medical Devices for Pain Relief, ensuring your clients' safety and peace of mind.

Using the finest materials, our packs are highly durable and remain flexible at freezing temperatures. Our premium packaging ensures our products don't look out of place on retail shelves, and has driven sales through impulse buying.

Ice Bags

The ice bag still remains a traditional alternative to a bag of frozen peas. The large screw lid opening allows for easy filling, making this a safe and reliable product, suitable for all ages.

- The pleated design allows the bag to conform to the contours of the body
- Fill with either ice cubes or cold water for cooling pain relief
- Use with warm water for relaxation and to ease joint stiffness
- Reusable and economical

	Code	Dimensions	RRP (inc. VAT)
S	DYN-IB-S	17cm (length)	£5.99
